# AVIATION SESSION INTERNATIONAL FORUM FOR DRUG & ALCOHOL TESTING

Special Session

Sponsored by

The **International Forum for Drug and Alcohol Testing** (IFDAT) will host a special session on April 14<sup>th</sup> on 'Drug Testing in the **Aviation Industry**'. We are pleased to announce that **Dr. Thibeault** of the International Air Transport Association (IATA) will chair this session and will lead a round-table discussion about where drug testing fits in the Aviation industry.

AIR CANADA

Line-up

Speakers from

## Drug Testing in the Aviation Industry

**Dr. Bill Isles**, Qantas Airlines

*Manager of Occupational Health Services*

"Our experience with the introduction of a testing program by the Australian **Aviation Regulator**"

**Barbara Jackson**, USAirways

*Manager of Drug and Alcohol Programs, HR Operations*

"FAA testing and the need for USAirways to test abroad"

**Dr. Annette Ruge**, European Aviation Safety Agency (EASA)

*Chief Medical Officer and Section Manager FCL*

"Rules for commercial and private pilots and discussions about alcohol and drug testing"

U.S AIRWAYS

## Drug and Alcohol Testing in the Aviation Industry: Where Does It Fit?

This round-table discussion is specifically for individuals involved with the **aviation** industry. Discussion points will include:

- Where does the testing fit in among laws and regulations?
- Should we look for coordination and standardization?
- Is there a need for a network to discuss these questions?
